

BYLASER™
CUTTING EDGE INNOVATION

CAPABILITY STATEMENT ARCHITECTURAL

**QUALITY PARTS,
DONE RIGHT
EVERY TIME.**

What Sets Us Apart?

Bylaser uses cutting edge laser technology to bring the ideas of architects, designers and builders to fruition. From architectural facades to decorative corten steel screens, we take great pride in turning your vision into reality.

By removing manufacturing constraints, your most beautiful, functional or complex designs can take shape and that's where Bylaser can support you. We help you simplify your supply chain by managing each stage of the production process, from sourcing material through to cutting, finishing and installation.

With laser technology as the key enabler, we deliver highly accurate and cost-effective metal processing solutions, parts and components, backed by fast lead times, reliability and superior service.

TURNING YOUR IDEAS INTO REALITY

- Architectural facades
- Corten steel screens
- Perforated screens
- Privacy screens
- Decorative entry gates
- Art Installations

Cutting Edge Innovation

SPECIALIST SERVICES

- Laser cutting
- Metal folding
- Fabrication and welding

FINISHING SERVICES

- Edge Rounding
- Zinc plating
- Galvanising
- Powdercoating

CUTTING CAPABILITIES

Bed size 1500 x 3000mm

- Aluminium 0.6mm to 30mm
- Corten Steel up to 6mm
- Mild steel all grades up to 25mm
- Stainless steel 0.25mm to 25mm

OUR EQUIPMENT

Bylaser operates the powerful and reliable Swiss-engineered Bystronic laser cutting machines and press brakes. With a combined cutting capacity of 197,280 minutes per week, our laser cutters can process your largest and most urgent jobs with fast turnaround times and the highest cut quality.

Our press brakes can bend up to 3000mm in length. The programming smarts and range of configurations enables us to deliver your jobs accurately and to specification.

OUR PROCESS

01 CONSULTATION

We care about delivering high quality work. Talk to us and we'll find the most time and cost-efficient way to produce and deliver your product.

02 QUOTING

You need your products quickly and we share that urgency with you. Our customer service team will turn your quote around rapidly so that we can push your job into production.

03 3D/CAD DESIGN

Our designers are experts in metal product design with industrial design qualifications. With collective experience of over 50 years, they deliver economical, functional and aesthetic results.

04 MATERIAL SOURCING

Bylaser's network of long-term suppliers enables us to reliably secure and manufacture a range of materials and therefore minimise lead times to you.

05 PRODUCTION

We combine reliable technology with efficient processes to deliver highly accurate metal parts and fast lead times. Quality control is paramount. Your products are delivered right, on time, every time.

06 INSTALLATION

We partner with experienced and fully licensed installers to provide you with a seamless end-to-end service.
